## The Foulest Crime on Record.

By Telegraph to the News.

New York, Nov. 1.—A despatch from Port Jarvis gives an account of a horrible crime committed at Thompson, Pa., where Miss Kennedy, a young school-teacher, was outraged by tramps, who, fearing identification, cut out her tongue. The victim seems to have had a strength remaining to have written her name on a blackboard in the school room. The trustees, on gathering for their regular meeting last Friday evening, discovered evidence of the crime in the lifeless victim lying on the school room floor, and her written story on the blackboard.

## The Weldon Fair.

By Telegraph to the News.

WILMINGTON, N. C., Nov. 1st '78.—At a meeting of the Agricultural Society last night an election of officers for the ensuing year resulted as follows: President, P. E. Smith; Secretary, L. M. Long; Treasurer, R. W. Brown, being all re-elections.

The salaries of the Secretary and Treasurer were increased from \$125 per year to \$250.

Nearly all of the Vice-Presidents were re-elected. Capt. Thigpen declined a re-election to the Vice-Presidency, preferring to be a worker in the ranks rather than an officer.

The day is beautifully bright and clear, and the last day of the exhibition is to all that could be desired. There was some little joy in this morning—the first of the season.

The attendance was quite large at the grounds, and the day was pleasant.

## Radical Tricks at Greensboro.

Special Telegram to the News.

GREENSBORO, Nov. 1.—The Radicals are using money freely in this District. They have brought a negro military company here from Virginia, to arouse the blacks.

## The Cat.

Detroit Free Press.

"What food do cats prefer?" "An \$20 mocking bird is their first choice. If the family are not able to have a mocking bird the cat must put up with an oriole or a Germany canary. It is only when suffering for food that a cat will accept a squirrel steak."

"Cats can't sing, can they?" "No; but bless 'em! they can keep trying to learn how! They have got so they can sound the first four notes on the scale, and they are determined to get the rest."

What time do they sing the sweetest?

"At night, between the hours of 11 p. m. and 4 a. m. You have probably read items about bold, bare men flinging boot-jackets, sticks of wood and other missiles at singing cats. Don't ever associate with such people. Cats have as much right in America as any one else, and it is only the meanest kind of folks who will try to keep 'em from rising up in the world!"

"How long do cats live?"

"Nobody knows, as no cat never had a fair show to see how many years he could put in. After he had hung around one neighborhood for fifteen or twenty years some one murders him."

## The Texan Method.

At San Antonio, Texas, a fued has long existed between Patrick Hart and a saloon keeper named Hugh Towe. Hart went into Towe's bar-room yesterday, and, drawing a revolver, said, "Step out here and let us settle that old grudge!" Towe, seizing his pistol, cut out when a regular duel ensued; the two men coolly shooting at each other. Finally Towe shot his antagonist, who fell on the pavement and instantly expired.

## Jim Heaton in Jail.

Democratic.

James Henton, the notorious Radical leader of New Hanover county and that section for many years since the close of the war, is now in jail in Wilmington under charges for various offenses, being unable to give bond for his appearance in the sum of a few hundred dollars. His father represented North Carolina in Congress and in the State Legislature soon after the war, and, although a "carpet-bagger," was as fair and respectable in his conduct as most public men of that day, and more so than a good many others. But the way of the transgressor is indeed hard, as proven in the case of James Heaton.

## Acclimating Bees.

The New Zealanders are about to spend a considerable sum of money in acclimating the bumble-bee, so as to assist the agriculturists in cultivating clover. Common bees are not strong enough to force their way into the petals of the clover flower, and thus fertilize the plants as they fly from one to another. For this purpose, therefore, the bumble bee is needed, but the feral bees need only be destroyed. Attempts to acclimate the common bee in some hot climates have so far proved useless. After a short period they quit the hives, and cannot be enticed back.

## The Florida Ciphers.

Baltimore Sun.

Mr. David W. Sellers, a prominent Philadelphia lawyer, who was in Florida, November, 1876, as one of the counsel for the Democrats before the courts on the Returning Board business, expresses a doubt whether the cipher-dispatches published in the New York Tribune ever came from Florida, or if they they have been translated by some key which suited the purpose of the translator more than any one else. He is certain the key was not the correct one. He says he was thrown into intimate association with the visiting Democrats, including Mr. Marble, and knows there was no purpose on their part to corrupt either the Returning Board or the Republicans electors.

## England's Next Premier.

Springfield Republican.

Benjamin Disraeli, Lord Beaconsfield, has had a sharp warning for a man of 73 that his career is approaching its end. An epileptic attack has given all England a fit, and the thread of his public service must henceforth be pretty slender. The toro-leader next in prominence and likely to succeed him for a time, at least, is a great nobody, a hard-headed, powerful, plain-spoken man, afraid of nobody, autocratic, perhaps to a fault, and needing the bits.

ELECTION—TUESDAY, NOVEMBER 5TH.

It is the duty of every good citizen to vote.

Apathy of Democrats is all that can beat us.

Only two days before the election in which work can be done.

Let no Democrat fail in his duty as a citizen and lover of his State on Tuesday.

Every Democrat in the Fourth Congressional District is needed at the polls next Tuesday morning.

That accomplished Roman Catholic divine, Bishop Keane, Vicar Apostolic of this State, is now paying a visit to this city, and by the fervency and practicalness of his discourses, as well as by his rare courtesy, renders himself welcome, and wins praise from people of all creeds.

The address of welcome of Robt. T. Gray, Esq., to the Sunday School Convention which assembled in this city yesterday, was an able and eloquent production. It marks him as one of the rising young men of the State. The News predicts for him a life of great usefulness and many honors.

It is so ordered in the affairs of men that success comes not without exertion. If the Democracy mean to carry this District the Democratic voters must come out to the election. Capt. Davis cannot be elected unless he gets votes enough, and the votes certainly can not be put into the box unless the voters go to the polls.

It is so obviously the interest of Canada to form a commercial union with this country, that England begins to relent, and is willing that the wayward colony shall do as it sees fit. The treaty power stands somewhat in the way, but it does not seem to have occurred to the British that the Canadian Parliament may adjust this matter independently of the home government.

The work of the short session of Congress will be taken up on the fifteenth of next month, at which time the appropriation committee will meet in Washington to begin the preparation of the general appropriation bills. Chairman Atkins expects to have the legislative bill ready to report at the opening of the session—a feat that would stand unrivaled.

The work before the Sunday-School Convention, now in session here, is a great and grand one, and the sight of the united faith thus enrolled in a common cause is pleasing. It is believed that great good will result from this effort for the advancement of one of the most influential religious influences in the country, the Sabbath-School. To the delegates, so assembled, we give our heartiest greeting bidding them God speed in their work.

The Mexican government deserves generous encouragement from American manufacturers in its efforts to establish an exhibition which is to be limited to the productions of this country and those of its own people. No better means can be adopted to develop our export trade than to bring our products directly under the notice of foreign consumers. No substantial success can be achieved otherwise.

Next Tuesday's elections are extremely important as having a bearing upon the choice of a President in 1880, should the election be thrown to the Congressional delegations in the House of Representatives. Twenty delegations will be a majority, and the Democrats have nineteen of them and will get one more, at least, from the States of California, Illinois, Kansas, Massachusetts, Michigan, Minnesota, Nebraska, Nevada, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Wisconsin. These States are mainly Republican. New York and Pennsylvania are not considered certain by the Republicans, and even New Hampshire is regarded as doubtful by them.

The Attorney General of the United States is busying himself to secure the arrest of Democrat in South Carolina, on the shallow pretense that they are intimidating Republicans, but the people of that State know that the duty of the Federal Government is to keep its hands on the State elections. The laws which gave it such right are unconstitutional. South Carolina has all the rights and privileges as a State in this Union that Massachusetts has, and

her government is as fully capable and desirous of protecting the citizens in their political rights as that Commonwealth is. The Administration, however, thinks differently, and it so thinks because it is a revolutionary Administration. It inserts its fraudulent fingers into the affairs of South Carolina, not to protect rights, not to preserve peace, but to stir up strife. That is the "mission" of the Republican party.

**Promotion of our Manufactures and Commerce.**

There has never been a time since the United States had an existence when the prospect of future commercial relations was brighter than at present. With its manufactured articles and products in demand the world over, with the many luxuries and necessities which it produces now finding a sale and in eager demand everywhere, the country need but make a vigorous and earnest effort to supplement England in what has long been her peculiar domain. One other all-important matter is the promotion of our shipping interests, and aid of our carrying trade to assume the proportions it should have.

Desirous of promoting these and other of the best interests of the country, a meeting of manufacturers, merchants and leading citizens was held at Chicago a few days past, at which the following resolutions were unanimously adopted:

*Resolved*, That we favor the holding of a National and International Commercial Convention in Chicago at an early day, to consider and suggest the best means of extending our trade with foreign countries in North and South America.

*Resolved*, That we regard the establishment of mail and transportation lines of steamships between our principal ports and those of other countries as indispensable to the speedy and prosperous growth of our trade with other countries.

*Resolved*, That the long and successful experience of England, France and Germany, in establishing and maintaining steamship lines by liberal pay for exclusive mail service, or else by actual and undisguised subsidies, should teach our Government the wisdom of that enlightened policy, and induce its application to our own mercantile marine whenever and where circumstantial may require.

*Resolved*, That we firmly believe that the period has arrived when the general welfare of this country demands that Congress should extend to our communications by water, ocean, gulf, lake and river, the fostering care and generous aid which have been heretofore devoted almost entirely to our communications by land.

*Resolved*, That we are convinced that such cheap rates of transportation across the Continent, from the Mississippi Valley to the Pacific Coast, as will encourage and develop our trade with China, India, Japan and Australia, will never be secured until the monopoly possessed by the present Pacific railroads shall be broken down by the construction of the Northern Pacific and the Texas Pacific lines, and we recommend that Congress take such action as will lead to the speedy completion of these competing lines on such terms and under such conditions as will secure the Government's cooperation.

*Resolved*, That a committee of twelve be appointed to carry these resolutions into effect, and to add to their number and co-operate with the city authorities and manufacturing and mercantile organizations.

It was proposed, therefore, to hold a convention in the city of Chicago, on Tuesday, the 12th day of November, to which His Excellency the President of the United States and Cabinet, the Governors of the several States, Members of the Senate and House of Representatives, Foreign Ministers accredited to this country from the South American States, Mexico, China and Japan, have been invited to be present; and the Governors of all the States, Chambers of Commerce, Boards of Trade, Mayors of Cities, and Manufacturers' Associations, who favor the objects set forth in the resolutions, were especially requested to send delegates. In accordance with this request, and fully appreciating the importance of the measures advocated to every State in the Union, Governor Vance will be pleased to appoint any merchant, manufacturer or business man who may desire to attend.

### Religious News.

The Convocation of Raleigh will meet at St. Barnabas Church in Greensboro, on Wednesday, 6th day of Nov. The Rev. Dr. Marshall of this city, will preach the opening sermon at eleven o'clock a. m., on day of meeting, and at same time on every succeeding day of the session on some one of the clerics in attendance will preach. Each night services will begin at half past seven o'clock, and several addresses will be made by gentlemen appointed by the Rev. Dr. Sutton, dean of the Convocation. It is expected that there will be a fair attendance of clergymen from this city, Fayetteville, Weldon, Salisbury, Goldsboro, Hillsboro and elsewhere.

### Bishop Keane's Lecture on Catholicism.

At 7:30 last evening this eminent Catholic divine delivered a lecture at Metropolitan Hall, on the claims of the Roman Catholic church to be the divinely appointed teacher of religious truth to mankind. Beginning with an inquiry whether man needs a teacher, he said that an analysis of human nature and a review of the systems of philosophy show two modes of reasoning being necessarily inquire concerning their nature, origin, destiny and moral duties; and that all attempts to answer these questions in the light of unaided reason have ended in doubt, merrily acknowledged by philosophers and proved by experience. The Divine Author must, therefore, have given man some means above his reason, but not contrary to it, for answering these inquiries, and such a revelation. This must have been given from the beginning. The primitive revelation is found in the Semitic race, the one which knows no change or departure from customs.

The only means which Christ established by which men should be taught religious truth was the teaching commission to His apostles, which was to extend to all creatures and last till the end of the world. The teaching authority like this divinely commissioned, must needs be infallible. He then said that the only teaching authority which even claims to be teaching every and infallible is the Roman Catholic church. He went on to speak of the objections urged against that church, namely, persecutions, hostility to ecclesiastical institutions, suppression of the Bible, etc., and concluded by saying that a better knowledge of the church would dispel these prejudices.

After the lecture, he said he had authorized Father White to secure a fitting location for a new church building, and to commence its erection as soon as possible.

### The Festival of All Saints.

The religious services appropriate to this festival were yesterday held in all the Episcopal churches of the city. At the Roman Catholic church the ceremonies were more than usually interesting, by reason of the presence of the Rt. Rev. Joseph J. Keane, Bishop of Richmond, who is Vicar Apostolic of North Carolina. The services began with the celebration of Mass at 7:30 a. m., at which mass the entire congregation received the holy sacrament from the hands of Bishop Keane. He afterwards made a few remarks, complimenting the congregation upon its piety and zeal.

At 9:30 o'clock High Mass was celebrated, Father White officiating. After the gospel, Bishop Keane preached a most able sermon upon "The Festival." He spoke of the connection, the ineffable chains, which bind heaven and earth in close communion, and said that the angels, aware of earthly affairs, were in full sympathy with us in all our actions.

He also spoke of the necessity of the erection here of a suitable church edifice, etc., and said that he would spare no pains to have the good work begin as speedily as possible. The style of delivery of Bishop Keane is marked by its vigor and earnestness, and his auditory was both instructed and his discourse was well received.

At 4:30 p. m. there were vespers, concluded by the benediction. The choral services of the day were beautiful, and reflect much credit upon the choir.

### Abstracts of Taxes.

The State Auditor yesterday received the following abstracts of listed taxes.

Catawba county, by J. M. Brown, Register of Deeds:

General taxes, \$2,755.87  
Special, " 2,818.50  
School, " 3,649.79  
County, " 4,904.49

Perquimans county, by Uriah W. Spriggs, Register of Deeds:

General taxes, \$1,603.81  
Special, " 1,624.81  
School, " 2,294.55  
County, " 5,377.66

Harnett county, by Joseph R. Grady, Register of Deeds:

General taxes, \$968.86  
Special, " 1,021.56  
School, " 1,839.77  
County, " 5,412.01

### Board of Aldermen.

The regular monthly meeting of the Board of Aldermen took place last night, Mayor Manly presiding. Mr. Rosenthal, elected at the last meeting in lieu of Mr. Osborn, resigned, was sworn in. After some debate the pay was approved and the balance committee appointed by the Board.

An exceedingly humorous resolution was offered, reporting the long expected death of Jim, the street commissioner's horse, and requiring the street commissioners to drap the city stables in mourning and to wear capes for the next 30 days; also requiring the members of the committee who certified to the soundness of the horse, to also wear capes.

Alderman Weaver moved to refund the fine imposed upon parties living outside the city limits, for having failed to take a city liquor license. After lengthy debate, Dr. Ward concluded to postpone the matter.

Alderman Horton complained about the inefficiency of certain lamplighters. The Board adjourned until Monday evening.

### Drummers' Licenses.

During the month of October over 50 of these licenses were issued from the State Treasury. Some one makes the inquiry whether a good many drummers do not fail to pay the tax, by evasion or carelessness, and says that some supervisor should be exercised here in the matter, that city merchants may be more effectively protected. The Washington Star, giving an account of the license of one of the unlicensed drummers, says—"Detective Mayer had marched a 'comme' up to the Treasurer's office to settle, and while getting ready to fork over the amount of his license he took occasion to denounce the officer in terms decidedly more emphatic than polite. Mayor Fishback happened to be sitting by at the time, the drummer evidently not being aware of the fact, and he immediately summoned the delinquent before him and required him to pay a fine of fifty dollars for insulting an officer in the employment of the city while in the discharge of his duty."

### Articles Most Stores Don't Keep.

Table mats, child's waist, cranberry bushes, Japanese goods, majolica ware and many other things. A very large stock of all these goods will be found at Law's china and silver ware house, also the finest line of "triple" plate casters, tea services, ice pitchers, etc., in the State, and all these goods were bought so low that we are selling them at almost half price.
